**PULLEY BURSTED.**  
And No Incandescent Lamps For Some Ten Days to Come.

For two nights users of incandescent lamps have been in the dark of old Madsen when the light went out.

Inquiry of the Chief Scientist at the Electric Plant developed the following unfortunate state of affairs.

Sunday evening everything was moving with devoted smoothness, and Albert Hill and Frank Browley each wore two cent smiles; all at once there was a kerfloo; the piping-jinny had cawed on the billows; the water-jugger had shot the bolt; the boiler had exploded; the water-jugger had shot the bolt; the boiler had exploded; the water-jugger had shot the bolt; the boiler had exploded.

It is a concise statement of the case from a purely scientific standpoint.

But, in plain United States, the big pulley which drives the incandescent dynamo burst, pieces flying in all directions, fortunately hurting no one and doing but slight damage to the building.

It is necessary to send to St. Louis for a new pulley and it will be five or ten days before the lights are on again.

**ST. FRANCES DE SALES.**  
This Old and Popular Academy Will Begin Its Fall Session Monday, Sept. 11th. With a Full Corps of Teachers.

The Sisters of St. Frances de Sales Academy will open their school September 11th, 1899. The Sisters will make every effort to maintain the high standard of education, ethical and physical culture, which this Academy has maintained since its establishment.

Teachers of excellence, experience and ability will be employed in every department. Modern and practical methods of instruction will be used and every care bestowed to make the Academy healthy and pleasant, homelike and enjoyable.

Special attention will be given to every branch of study, and to meet these requirements Sister Borja has fortunately secured three teachers of experience and ability from St. Frances de Sales Academy in New York, one of whom has enjoyed an enviable reputation as teacher of music in that city, and will take charge of the vocal and instrumental department.

The literary course comprises the best American and English authors and will be under the charge of a thorough and experienced teacher, who will also instruct in composition, letter writing and the cultivation of the conversational powers. The course of study has been carefully revised to meet the full requirements of the education of young ladies. In the primary department the girls will be taken to train the perceptive faculties to a quick and correct observation; in the junior department the powers of reflection and reason will be trained and prepared to enter the senior department, where the highest knowledge will be taught in connection with all that cultivates, grace and accomplishes a lady's education and deportment.

The Sisters cordially invite patrons who have young ladies to educate to send to the Directress of the Academy for their prospectus and examine their course of study and their rates of charge, assisting parents and guardians that they will use every effort to faithfully educate and carefully look after the health, comfort and deportment of pupils intrusted to their care and instruction.

During the Civil War, as well as in our late War with Spain, dysentery was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene county, is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by J. Jas. Wood & Son, Drugists.

**NOW IN FLORENCE**

Rev. A. T. Ennis Writes Entertainingly From There.

**THE WORLD'S FAMOUS PAINTERS**

FLORENCE, August 16, 1899.

Editor *Margaret Lehigh*: If we desire to study works of art and to understand the spirit of a particular school we must visit the very place where a set of artists have lived and dreamed and impressed on the painted canvas the ideas floating before their minds. Single productions scattered far and apart in various galleries will never enable the student to form an adequate idea of the mental that distinguish great masters.

Assured by such convictions I leisurely wandered through the smiling plains and verdant hills of Umbria, under whose genial sun the fire of inspiration directed the pen of genius. The presence of Italy and her birth, and was consecrated by the presence of Francis of Assisi, that tender-hearted and loving saint celebrated in song and story. In the rustling of the leaves, kissed by the amorous winds, and in the murmuring of the fountains, the inspiration in waiting for the pilgrim seems to hear the sighs of the ecstatic soul enamored of the beauty of God. The Ode to Creation hymned by Francis centuries ago forms one of the precious gems of our literature.

Before Dante touched the strings of his Florentine harp, the deeds of the simple Friar of Assisi are handed down by the pen of the Umbrians and by the pencil of their immortal painters.

The ardent student of the development of art in the sunny land by two seas cannot fail to observe the influence which the humble Monk exercised in his country at the end of the fourteenth and at the beginning of the fifteenth century. At that period Florence was the inspiration in waiting for the study of ancient models, aiming exclusively at the external reproduction of classic beauty, cold and majestic, from which any spiritual life was sadly excluded. Francis brought a new inspiration, a new spirit against this tendency; those sublime works the world is never tired of admiring. With him, however, the Italian painting of the Renaissance had only its point of departure. It was reserved to the Umbrian school to associate the beauty of nature and the romance with the imitation of nature and the story of the classics.

The religious and spiritual environment of Umbria served to intensify such conception of the art of painting—a conception landed to the very soul and deemed worthy of imitation by our modern neo-Raphaelites. Francis and his life appeared like a vision to the rivals of Florence and Venice. Temperament complemented the strength of intuition, and a simplicity rare was given to the content that threatened to make for the errors of paganizing humanism. The school of Umbria rose in the first half of the fifteenth century. Its main characteristics were the introspection of the soul, its set to work to express on canvas forms breathing celestial impulses, and a tenderness bearing the stamp of the divine. Piero della Francesca, Botticelli, Perugino and the great Alunno drew the pencil animated by a peculiar mode of thought, which by degrees developed a spiritualizing habit. Perugino and Botticelli soon carried to the uttermost perfection the qualities exalted by their predecessors. The Umbrian school fell later on into a kind of mannerism and decline, if decline it may be called, and not even, but it had the honor of forming that prince of artists—the immortal Raphael.

I am hastily penning down these reflections at my hotel in Perugia after a day of rambling through the quiet city. The Church of St. Francis, adorned with many works of art, produced great impressions on me while in Assisi. The Monk who kindly took me around pointed out with pride to the frescoes of Giotto who painted the four virtues practiced by the Saint—Poverty, Chastity, Obedience and Forgiveness. These figures fully justify the praise accorded to the Father of Italian painting for having substituted to symbolical individuality perfectly humanized and naturally idealized. Verily they are allegories, not abstractions, but allegories strong and precise, and it had the honor of forming that prince of artists—the immortal Raphael.

Cambio or municipal palace, and the galleries possess some of the best works produced by earnest men whose object was the expression of a mystic ideal blending with nature and classicism.

To enjoy the charm and to find a key to the secret of the Umbrian style of painting the tourist must come here. The environments around the city and predispose the senses for the reception of sensations impossible to be felt elsewhere. Even the grace of the landscape and the delicate tints of the atmosphere are reproduced in the background of noble compositions in front of which live and move and have their being spiritualized figures that, like the mystic ideal seen by sleeping Israel, bind heaven to earth.

Florence will be the next resting place in my long homeward journey. A. T. ENNIS.

## NEGROES BEATEN.

Gov. McSwenny Asked to Assist in Suppressing the White Cap Outrages.

### HE WILL MAKE AN INVESTIGATION.

Among the Lower Class of Whites There is a Disposition to Drive the Colored People Out.

Negro Houses Were Visited by White Caps and the Inmates Taken Out and Whipped—Many of Them Are in a State of Terror.

GREENWOOD, S. C., Aug. 16.—The sheriff of this county Tuesday appealed to Gov. McSwenny for aid to assist him in suppressing whitecap outrages which began here a week ago. Tuesday night the governor sent word that he would be in Greenwood Wednesday with Attorney General Bellinger to make a personal investigation of the situation.

For more than a week a gang of so-called whitecaps have been whipping Negroes in this county nearly every night. The section between Greenwood and Phoenix is largely tenanted by Negroes who rent from white land lords. It was at Phoenix, in this county thickly settled by Negroes, that the election riot between blacks and whites took place last November.

Since then among lower classes of whites there has been an increasing disposition to drive out the Negroes. Certain white men here, it is said, desire to get control of the valuable lands thereabout, and in order to do so they have set about to drive out the Negroes.

Monday night one week ago the whipping began. Negro houses were visited and the inmates taken out and whipped. Several nights since the performance was repeated, and a wild territory has been covered in this manner by the whitecappers. The Negroes are said to be in a state of terror, and many spend the nights in the woods and swamps, while others seek the protection of their white landlords. On Saturday night 200 Negroes spent the night in Greenwood, and many of them have returned to their homes. So far as known none have left the county. The better class of whites deplore the state of affairs.

The Negroes are afraid to give information, and certain white men have been threatened if they take action against the white capper. Senator Tillman and Congressman Lattimer, of this district, are both here attending the wheat growers' convention, and it is believed they will assist the governor in his investigation of the matter.

### THREE GREAT PACERS

John R. Gentry, Joe Patchen and Searchlight to Race at Rochester—All the Horses in Good Form.

ROCHESTER, N. Y., Aug. 16.—The three greatest pacers John R. Gentry (2000), Joe Patchen (2014) and Searchlight (2015) are now waiting the call of the starter's bell and barring accidents each will be ready to go the race of his life Wednesday afternoon. Gentry never looked better and his trainer and driver, W. J. Andrews, expects him to go a mile better than two minutes, this season, if not within the next 24 hours. Patchen is also in great form. On Sunday he went the last quarter mile in 29 1/2 seconds, a 1:55 pace.

Searchlight, the youngest member of the trio, has demonstrated his fitness to compete for the crown, and his owner is very confident.

### THE TROUBLE SETTLED.

All South Side Brick Yards at Chicago Resume Work After an Entailed Idleness of Three Weeks.

CHICAGO, Aug. 16.—After an enforced idleness of three weeks all the south side brick yards resumed work Wednesday in accordance with an agreement drawn up Tuesday between representatives of the manufacturers and a committee from the strikers. The workmen made no concessions and return to work under precisely the same conditions that they left them. While President Carroll of the building trades council will not concede that the strike was lost, he confesses that he is unable to mention any material gain.

Blockaded by Ice Flies.

St. Johns, N. F., Aug. 16.—The mail steamer Labrador, from Labrador, which arrived here Tuesday, reports that the entire coast is blockaded with ice flows from the northern extremity south to the Straits of Belle Isle. She reached this port five days behind her usual time. Such a condition is unprecedented in the history of the northern waters. It will not only seriously injure the cod fishing industry, but greatly increases the difficulties for ocean steamers making the passage by way of the straits.

Recruits for Manila.

SAN FRANCISCO, Cal., Aug. 16.—The transport Senator sailed for Manila Tuesday with 700 officers and recruits and a signal corps. There was very little excitement over the departure.

## STARTLING STORY

Letters From Lieut. Gilmore's Party, Captured by Filipinos, Sent to Gen. Lawton.

### THEY TELL OF HARDSHIPS ENDURED.

They Had Been Beaten, Starved and Bound, and Moreover Were in Rags, and Ask for Aid.

The Spanish Prisoners Had Also Been Treated Very Badly, Even worse Than the Americans, Many Dying of Disease.

SAN FRANCISCO, Aug. 16.—The Bulletin publishes a startling story from the Philippines, regarding Lieut. Gilmore and the party from the Yorktown who were captured by the Filipinos and who have been reported from official sources as being well cared for and well treated.

It appears that when the Americans reached San Isidro, where the Yorktown members and some soldiers and civilians had been imprisoned, they found the names of the prisoners scratched on the walls of the jail. Some letters from the men were found secreted under stones and a Spanish word had been intrusted with several, presented them to Gen. Lawton.

The letters told of the hardships the men were compelled to suffer, and begged that aid be sent them. The men complained that they had been starved, beaten and bound, and moreover, were in rags. One of the letters signed by Albert Lowenshohn said that the Spaniards had been treated very badly, and that the Americans, who had hundreds of dysentery and other diseases, and that the government took no notice of the sickness prevailing.

In the letter Lowenshohn, who was formerly of the steamship Zealandia, gave the list of prisoners held by the Filipinos as follows:

Prisoners from Yorktown: J. C. Gilmore, U. S. N.; W. Wilson, C. O.; M. P. Vandell, S. M.; M. W. Ellsworth, C. O.; M. Swain, S. E. Edwards, S. E. D.; S. E. Brisoloz, O. G. A. P. Wason, apprentice; F. Anderson, landsman; captured; J. Aler, April 11; A. Borree, E. Honeman, Nevada cavalry, captured January 30; A. Bishop, 3d artillery, April 12; H. H. Huber, hospital corps, and J. O'Brien, civilian, January 27.

Gov. Roosevelt has accepted the chairmanship of the enlarged committee. The contributions received by the Merchants' association now amount to \$4,000. Clothing and medicine are very much needed. The Merchants' association has already sent out 14 cases of goods.

## SAMOAN AFFAIRS.

A German Paper Publishes the Substance of the Report of the Commission.

### EUROPEAN FOR GOVERNOR OR RULER.

The Three Powers are to Appoint the Governor and a Council of Three Members.

The Powers Reserve the Right to Alter or Invalidate Laws Enacted by the Legislature—Chief Justice is to be Elected.

BERLIN, Aug. 16.—The Kottische Zeitung publishes what is described as the substance of the report of the Samoan commission. According to this abstract the future government of the Samoan islands is to consist of a governor and a council of three members, Germany, United States and Great Britain. The commission favors the nomination of a European ruler as governor. The governor will nominate all officials and have power to punish or pardon state offenders. His signature will be necessary in the enactment of laws.

The legislature will consist of the governor and council, three members forming a quorum, and the governor having casting vote.

The powers reserve to themselves the right to alter or invalidate laws enacted by the legislature.

The governor will annually convene an assembly of natives to deal with domestic affairs. This body will sit at Mulinu, but not longer than a month. Its decisions will be liable to revision. The chief justice is to be elected. He must be a man of probity, versed in law and equity. His salary shall be \$5,000.

All decrees of the legislature must have received the consent of three members of the legislative assembly, composed of the governors of the different districts.

The chief justice, or some other official nominated by the governor, shall preside over deliberations of the assembly, but without a vote.

On all questions within his jurisdiction, the decisions of the chief justice shall be final but the three powers reserve the right to modify or reverse his decisions on political or constitutional questions or matters of international law.

Disputes between Samoa and any of the treaty powers shall be regarded as cases of war, but are to be submitted to the chief justice.

The high court of justice will have cognizance in the first and final instance of all disputes arising out of the interpretation of the treaty, and of all questions concerning real property, and foreigners and crimes against life.

None of these provisions will interfere with the jurisdiction of the court of appeals and the court of appeals of the court of appeals and the court of appeals of the court of appeals.

The salary of the governor or administrator, shall be \$6,000.

### LABOR REMOVED.

The Wounded Attorney Taken to the Residence of the Chief Justice.

KENNES, Aug. 16.—At 8 o'clock Tuesday evening M. Labri was removed to an ambulance to the residence of Prof. Flach in a suburb of Rennes. He stood the journey well, although naturally fatigued.

The doctors Tuesday night were extremely hopeful of a speedy recovery, but consider it would be unwise for him to return to court until there is absolutely no danger of a relapse.

M. Demange has decided to ask for an adjournment, which has necessitated a written application by both M. Demange and Capt. Dreyfus, who have already sent letters to the president of the court martial.

Col. Jouan will undoubtedly accede to the request, but he can not grant an adjournment for more than two days when the application must be renewed. Capt. Dreyfus has written two letters to M. Labri. The first on bearing the news of the attempt to murder the lawyer, is a spontaneous expression of his shocked feelings. The second is a touching epistle expressing the prisoner's keen regret at the disaster and outrage, profound gratitude to M. Labri for his heroic championship and heartfelt wishes for his happy recovery.

Going to the opposition of Maj. Carriere, the government commissary, the court-martial has refused the application of Maitre Demange for an adjournment of the trial until Monday. The proceedings opened without delay at 6:30 Wednesday morning.

Poor Crop Prospects in Bombay.

BOMBAY, Aug. 16.—Rain has fallen in many districts of the island of Bombay, but the crop prospects are most gloomy.

## SENATOR M. L. HAYWARD.

He Was Stricken With Apoplexy at the Modern Woodmen's Picnic, at Brownville, Nebraska.

OMAHA, Neb., Aug. 16.—Senator M. L. Hayward was stricken with apoplexy Tuesday forenoon at Brownville, Neb., where he had gone to deliver an address at the Modern Woodmen's picnic. He was apparently in good health and spirits up to the moment of attack, and was sitting on the platform chatting pleasantly with friends while awaiting his turn to speak. Just as the presiding officer was about to introduce the senator he was seen to sway in his chair and then fall helplessly to the platform.

Two doctors who were in the audience speedily made their way to his side, and the members of the Woodmen formed in line to keep the crowd back. The doctors worked with him from a little after 11 o'clock, when he was stricken, until 2 o'clock when he recovered consciousness. He was then removed to residence nearby, where he now is. The wife and son of the senator was summoned from Nebraska City and arrived on a special train during the afternoon with the family physician.

It had been intended to remove Senator Hayward to his home during the afternoon and up to about 4 o'clock it was thought this could safely be done. About this time, however, unfavorable symptoms developed, and it was decided to abandon the attempt. He is now some weaker than at 4 o'clock, and while the doctors have not abandoned hope, they admit he is in a very precarious condition.

### TRANSVAAL SITUATION.

Question of Neutrality and Care of Our Interests in That Locality Not Yet Taken Up by Our Government.

WASHINGTON, Aug. 16.—The situation in the Transvaal is regarded by the State department as critical. Thus far, however, the state department has not received a word from any source concerning the strained condition of affairs and there is no disposition to take up such questions of neutrality and the care of our interests in that locality unless the war issue is actually framed. Charles Macrum is the United States consul stationed at Pretoria. He has been in the Transvaal for some time with commercial affairs, but has not touched on the delicate political conditions existing.

The United States also has a consular agent at Johannesburg, but he has not been heard from since he was appointed. There have been recent reports from Johannesburg that a colored blacksmith, claiming to be an American, had been roughly handled by the field cornets, and that he had raised the question of his American citizenship, and had appealed to the American representative.

Adm. Holson's return will probably shed much light on the condition of affairs in the four counties, and the extent of American interests, for while the Chicago was in South African waters the admiral spent much time at Pretoria and Johannesburg. The admiral has so far made no report of his movements.

### GUNBOAT NEWPORT.

Another Very Satisfactory Trial of the Vessel Made—She Made Slightly Over Eight Knots an Hour.

WASHINGTON, Aug. 16.—Another very satisfactory trial of the gunboat Newport has been made. After the Newport had been a year and a half in commission and seven months out of dry dock, in a run of 136 hours she made slightly over eight knots an hour with a coal consumption of a slightly over 200 tons. As the gunboat burned 222 tons of coal this indicates a steaming radius of 19 days, or 3,722 knots. The Newport, like the other gunboats of her class is copper bottomed, and her efficiency is not impaired by remaining long in the water.

This test of the Newport's capacity conforms very closely to the results obtained in other ships of her type, which include the Vicksburg, Annapolis, Marietta, Princeton and Wheeling. Each is of a thousand tons displacement.

Small Riot in Paris.

PARIS, Aug. 16.—As an anti-semitic group was standing at the corner of the Faubourg St. Denis and the Rue de Valenciennes, Tuesday evening, some passerby cried: "Down with the Jews," whereupon they were surrounded and threatened by the demonstrators. A supposed anarchist then fired several revolver shots, wounding three men. One of them, a man named Camille, was taken to a hospital seriously wounded. The alleged anarchist was arrested.

The storm at Wilmington, N. C.

WILMINGTON, N. C., Aug. 16.—Up to 10 o'clock Tuesday night the highest velocity of wind was 30 miles per hour, but the local weather bureau forecasted the arrival of a storm of much greater proportions within a few hours.

### KENTUCKY FLASHES.

#### THE CONVENTION.

Judge J. W. Greene, of Owen County, Will Be Made the Temporary Chairman—The Probable Ticket.

LEXINGTON, Ky., Aug. 16.—The clans were gathered Tuesday night for the democratic state convention to be held Wednesday at 2 p. m. Over 300 arrived Tuesday evening, and the enthusiasm, determination and numbers of anti-slavery element was a surprise to both sides. It is about settled that a full ticket will be put in the field, and the disposition is to allow John Young Brown to name it in order to avoid all friction arising from contests for places.

The convention will be harmonious, and it is expected it will close its work Wednesday night. The platform has not yet been finished, but it will endorse Bryan and silver, making the fight on Goebel and the methods of the Louisville convention the keynote of the contest. Chairman P. P. Johnston is in at Buffalo Springs, Ky., and will not be here, and some one whom Brown will be allowed to select will call the convention to order. Judge Wm. Beckner, of Winchester, and Hon. Washington Ramsey, of Newport, are spoken of for permanent chairman. Gov. Brown arrived Tuesday night and went into conference with leaders.

At a conference held late Tuesday night it was decided that Hon. Phil H. Thompson, of Harrodsburg, will call the meeting to order. Judge J. W. Greene, of Owen county, will be made temporary chairman. It was decided to call the convention to order at 1:30 instead of 2 p. m.

The following will probably be the ticket: Governor, John Young Brown, of Louisville; Lieutenant Governor, Maj. P. P. Johnston, Lexington; Attorney General, John D. Carroll, Henry county; auditor, G. Matt Adams, Knox county; treasurer, western Kentucky banker; secretary of state, Capt. Ed Hines, Bowling Green.

The feud between the Sizemore and Ashers, and both factions are carrying Winchester. The latter place is 30 and Lexington 15 miles from Manchester.
